RE: ReeCourse Golf products

We have been using the ReeCourse and ReeVerse Poa products for several years now and have seen a great reduction of the poa annua. We have used the ReeCourse products now for the second year and have noticed greater rooting for both the fairways and the greens. We are also seeing that we need fewer chemicals: fertilizers, insecticides, herbicides, and fungicides.

These products are saving us money and keeping our course looking great! I will continue using these products as long as they work well like they do currently.

Thank you,

A handwritten signature in black ink, appearing to read 'William R. Johnston', with a long horizontal flourish extending to the right.

William R. Johnston, Superintendent
